Memo No.: 2184(25) /ENGG/MGNREGS

Dated: 02/01/ 2012.

To  
The Programme Officer, MGNREGS &  
Block Development Officer,  
\_\_\_\_\_ (all) Dev. Block,  
Purba Medinipur.

Sub: - Revised Schedule of Rate for earth work under MGNREGA.

Ref: - P & RD Departments No. 7490-RD/P/NREGA/185-09/06 dated- 20.12.2011.

Enclosed kindly find herewith above referred order regarding revised schedule of rates (SOR) for earthwork under MGNREG Act with effect from 01.01.2012 issued with a view of encouraging at least 50% women participation in the work force.  
It is further mentioned that the soil type will be selected by the respective Block Development Officer as per type of soil of respective Gram Panchayats.

Keeping in mind that table-3 (Mixed medium hard soil with soft morum, hard earth, kankar etc. to be excavated by pick-axe) and table-4 (Hard soil/hard morum, laterite or rocky soil to be excavated by pick-axe) will not be applicable in Purba Medinipur District.

He will circulate this order to all Gram Panchayats and Project Implementing Agencies under his jurisdiction.

Encls: As Stated.

Additional District Programme Coordinator, MGNREGS, &  
Additional District Magistrate (Dev),  
Purba Medinipur.

Memo No.: 2184(25)/1(37) /ENGG/MGNREGS

ORDER

OFFICE OF THE DISTRICT MAGISTRATE (BUREAU CELL) Purba Medinipur District FLETCO, # 1 (Without Verification) Date - 30 DEC 2011 No. - 8484
---

No: 7490-RD/P/NREGA/18S-09/06

The Government has been actively encouraging the increased participation of women in MGNREGA ever since its launch. As per the MGNREG Act, participation of 33% women in the workforce is mandatory. Now, the Government intends to encourage at least 50% women participation instead of 33% women in the workforce. With a view to achieving this end, the average output in a mixed group of male & female workers, reflected in the Schedule of Rates (SOR), has been revised, broadly classifying the soil into five major categories, viz., (i) Loose & soft soil; (ii) Ordinary mixed soil; (iii) Medium hard soil; (iv) Hard soil, moorum & laterite; and (v) Muddy & slushy soil are appended in the separate sheet.

This revised SOR for earth work will take effect from 1<sup>st</sup> January, 2012 in all the districts for all Rural Employment Programmes under the Panchayats & Rural Development Department and is in supersession of all previous SOR/ works in so far as it relates to earth work only.

The following points should be accounted for consideration while enforcing the revised SOR/works.

1. It shall be the responsibility of the district to select the appropriate SOR applicable to a particular block, or part of it, within the district with due regard to type of soil available there to ensure the average earning of wage per manday. The estimate should be framed on that basis to achieve the minimum wage rate to the participants engaged in the scheme.
2. In every work, the average wage per day earned by the labourers should be monitored regularly to ascertain whether they earn the minimum wage per day on an average. In case the average wage earned turns out to be much higher or lower than the minimum wage, it should be presumed that the schedule of rate has not been appropriately applied and in such case estimate is to be revised applying the appropriate rate of the schedule to ensure average earning of the minimum wage per day.
3. In the event of climatic change/drought condition the output may be reduced up to a maximum limit of 10% of the revised SOR by an order issued by the District Magistrate, if he/she is satisfied that the soil has become so much harder that it is not possible to give the output as mentioned in the revised SOR.
4. The payment of wages will be equal for equal works for both male and female workers.

**1. Loose and soft soil to be excavated by shovel/spade**
